

Motion  
Computing

## WORK SITE, JOB SITE, YOUR SITE.

Compact. Lightweight. Rugged. The Motion Computing® F5v brings mobile computing to a whole new level. Get the exceptional performance of an Intel® Core™ i7 vPro™ processor and the freedom to work anywhere.

→ THE MOTION F5v ←

### POWERFUL PERFORMANCE FOR PRODUCTIVE MOBILE COMPUTING

At only **1.5kg<sup>1</sup>**, the Motion® F5v makes it easy to take technology into the field to streamline processes and increase productivity. And now with Intel® Core™ vPro™ technology, the F5v offers new levels of power, security and manageability. With a **50% improvement in performance<sup>2</sup>**, a nearly **30% increase in battery life<sup>2</sup>**, **hot-swap battery feature** and enhanced remote management capabilities, mobile workers are equipped with the ideal mobile computing device for virtually any environment.

The rugged and portable Motion F5v helps make the most out of every site visit. Capture digital signatures in real time, and access forms and files anywhere with integrated **Gobi™ 2000** or Wi-Fi® connectivity. Even track high-value assets, manage inventory and improve documentation with the optional **RFID reader, digital camera, web camera** and **barcode scanner**.

The F5v packs power and integrated features into a highly mobile, durable design.

Protect.  
Manage.

Speed up the billing process with electronic signatures and approvals.

#### WORK-SITE TOUGH

Don't worry. The F5v brought its hard hat. Tested and proven to withstand field-ready conditions such as dust, heat and rain, the Motion F5v is ready to work wherever you're working. The strong internal magnesium frame, shock mounted display and hard disk drive (HDD) or optional solid state drive (SSD) protect against drops and bumps. Fully-sealed, the F5v is protected against the elements and easily cleaned.

The Motion F5v comes standard with **Gorilla™ glass**, offering **up to four times the strength in breakage resistance<sup>3</sup>**, perfect for real-world mobile work environments. Add **180-degree viewing angles**, Hydix AFFS+ LED backlit display and **View Anywhere®** technology for reduced reflectance and glare and you get the best tablet PC viewing experience available for outdoor use. Improved battery life over typical displays and an extremely damage-resistant surface make the Motion F5v tough enough to withstand your work environment and powerful enough to get the job done.

#### RUGGED FROM THE INSIDE OUT

Internal magnesium frame  
Fully sealed and IP54-rated  
Meets MIL-STD-810G  
64GB SSD (optional)

#### INDUSTRY-LEADING DISPLAY

Hydix AFFS+ LED backlit display  
View Anywhere® technology  
Gorilla™ glass durable display

#### LIGHTWEIGHT AND HIGHLY MOBILE

Only 1.5kg<sup>1</sup> (3.3 lbs)  
Built-in handle  
Hot-swappable battery  
Built-in wireless connectivity

#### OPTIONAL INTEGRATED FEATURES

3.0-Megapixel camera  
Front-facing web camera  
RFID reader  
Barcode scanner

#### POWERFUL YET EFFICIENT

Intel® Core™ i7 vPro™ Processor (1.2 GHz) or  
Intel® Core™ i5 vPro™ Processor (1.06 GHz)  
Supports Windows® 7 and Windows® XP  
1.8" HDD with 160 GB capacity and up to 4GB of RAM  
USB 2.0 port

Review and update project status on site and on time.

#### ABOUT MOTION COMPUTING

Motion is a global leader in integrated mobile computing solutions, combining world-class products with services customized for the unique needs of target vertical markets. The company's enhanced line of rugged tablet PCs, mobile point of care solutions and accessories are designed to increase mobile productivity while providing portability, security, power and versatility.
