Frequently Asked Questions

How do Technology Partners work with Acquire?

Acquire partners with hardware and software providers to connect their solutions with GIM Suite. These integrations help customers share information between systems, improve efficiency, and maximise the value of their technology investments.

Do I need developer tools to build an integration with GIM Suite?

Yes. Acquire provides developer resources and tools to support the development of integrations with GIM Suite. Contact [our team](#) to discuss your requirements.

I'm a software vendor. Can I integrate my solution with GIM Suite?

Yes. If you'd like to connect your software with GIM Suite or explore a Technology Partner relationship, [contact Acquire](#) to discuss opportunities and integration requirements.

How do I get support for an integration?

If you need help setting up an integration with GIM Suite [contact Acquire](#) or refer to the Help Centre for assistance.
